

Press Release – March 24 2008

New Plus Investor Relations Service launched

London –PLUS Markets Group Plc in partnership with Finance Media are pleased to announce the launch of the new PLUS Investor Relations Service today.

The new service provides all PLUS-quoted companies a comprehensive on-line solution to answer this investor relations need. A fully integrated out-sourced investor relations solution, the PLUS and FME Investor Relations website service enhances corporate websites, thus providing investors and shareholders with a feature-rich resource showing timely and comprehensive company IR information, as it happens.

“Websites of listed and quoted companies are increasingly playing an important role as the company’s primary ‘shop window’. Aside from marketing and regulatory requirements, it needs to provide companies with an effective channel to communicate corporate messages in order to build and maintain investor confidence” said a PLUS Spokesperson.

Graham Clark – Business Development Director added “Promoting your company to investors can be challenging, and in today’s world of online and Internet connectivity, a company website is often the first port of call for investors, shareholders and customers in search of information. The new IR Service continues our working relationship with PLUS to provide added-value tools for both companies and investors alike”.

Established in 1999, Finance Media developed and manages the PLUS website and develops market data driven applications, websites and technology solutions for financial institutions, banks, brokers, media & corporate web sites.

ENDS

About PLUS

The PLUS-quoted market is one of the capital market offerings of PLUS Markets (or “PLUS”), an independent small and mid-cap stock exchange in London, with Recognised Investment Exchange status. The PLUS-quoted market is an exchange-regulated market for growth companies. The entry criteria are clear, transparent and unequivocal. In addition, investors in PLUS-quoted companies benefit from a range of tax advantages that are designed to facilitate the growth of smaller companies.
